This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- The concepts of community energy and social entrepreneurship are linked
- A tool for the analysis of community energy projects is developed that encompasses their purpose, organisation and embeddedness
- Collective ownership schemes and participation ensure the pursuit of socio-ecological goals
- Many community energy initiatives are founded by and linked to social movement activity
- Locality is no necessary condition for social enterprises or community energy
