Study of variation in droplet size of an aqueous–diesel emulsion formed by an oil-degrading microbial consortium

R. Melgarejo-Torres, A.D. De la Concha-Gómez, R. Calva-Hernández, M.A. Lizardi-Jiménez

PII: S0920-4105(17)30058-X

DOI: [10.1016/j.petrol.2017.08.011](https://doi.org/10.1016/j.petrol.2017.08.011)

Reference: PETROL 4174

To appear in: *Journal of Petroleum Science and Engineering*

Received Date: 8 January 2017

Revised Date: 2 June 2017

Accepted Date: 2 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Study of variation in droplet size of an aqueous–diesel emulsion formed by an oil-degrading microbial consortium
