Nickel oxide as an effective catalyst for catalytic combustion of methane

Fengxiang Liu, Yanyan Sang, Hongwei Ma, Zhanping Li, Zhiming Gao

PII: S1875-5100(17)30078-1

DOI: [10.1016/j.jngse.2017.02.025](https://doi.org/10.1016/j.jngse.2017.02.025)

Reference: JNGSE 2078

To appear in: *Journal of Natural Gas Science and Engineering*

Received Date: 1 August 2016

Revised Date: 17 February 2017

Accepted Date: 18 February 2017

Please cite this article as: Liu, F., Sang, Y., Ma, H., Li, Z., Gao, Z., Nickel oxide as an effective catalyst for catalytic combustion of methane, *Journal of Natural Gas Science & Engineering* (2017), doi: 10.1016/j.jngse.2017.02.025.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
