

# Accepted Manuscript

Shale lamina thickness study based on micro-scale image processing of thin sections

Yao Zhang, Tianye Li, Lingzhi Xie, Zhipeng Yang, Rongyao Li

PII: S1875-5100(17)30337-2

DOI: [10.1016/j.jngse.2017.08.023](https://doi.org/10.1016/j.jngse.2017.08.023)

Reference: JNGSE 2291

To appear in: *Journal of Natural Gas Science and Engineering*

Received Date: 13 April 2017

Revised Date: 11 July 2017

Accepted Date: 1 August 2017

Please cite this article as: Zhang, Y., Li, T., Xie, L., Yang, Z., Li, R., Shale lamina thickness study based on micro-scale image processing of thin sections, *Journal of Natural Gas Science & Engineering* (2017), doi: 10.1016/j.jngse.2017.08.023.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
