A new finite element method to predict the fracture initiation pressure

Qinglin Shan, Yan Jin, Mian Chen, Bing Hou, Ruxin Zhang, Yue Wu

PII: S1875-5100(17)30151-8

DOI: [10.1016/j.jngse.2017.03.033](https://doi.org/10.1016/j.jngse.2017.03.033)

Reference: JNGSE 2134

To appear in: *Journal of Natural Gas Science and Engineering*

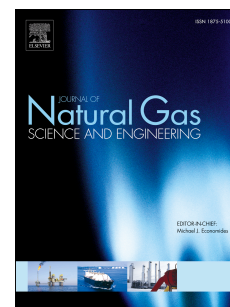

Received Date: 28 July 2016

Revised Date: 16 March 2017

Accepted Date: 18 March 2017

Please cite this article as: Shan, Q., Jin, Y., Chen, M., Hou, B., Zhang, R., Wu, Y., A new finite element method to predict the fracture initiation pressure, *Journal of Natural Gas Science & Engineering* (2017), doi: 10.1016/j.jngse.2017.03.033.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
