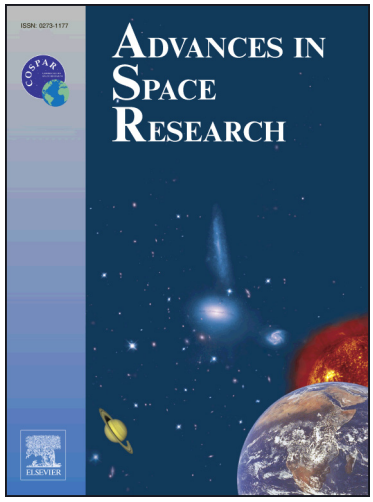
Accepted Manuscript



Moho modelling in spatial domain: a case study under Tibet

Wenjin Chen, Robert Tenzer

PII: S0273-1177(17)30188-6
DOI: http://dx.doi.org/10.1016/j.asr.2017.03.015
Reference: JASR 13149

To appear in: *Advances in Space Research*

Received Date: 29 September 2016
Revised Date: 9 March 2017
Accepted Date: 10 March 2017

Please cite this article as: Chen, W., Tenzer, R., Moho modelling in spatial domain: a case study under Tibet, *Advances in Space Research* (2017), doi: http://dx.doi.org/10.1016/j.asr.2017.03.015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
