Anoxic Atmospheres on Mars Driven by Volcanism: Implications for Past Environments and Life

Steven F. Sholes , Megan L. Smith , Mark W. Claire ,
Kevin J. Zahnle , David C. Catling

PII: S0019-1035(16)30075-6
DOI: [10.1016/j.icarus.2017.02.022](https://doi.org/10.1016/j.icarus.2017.02.022)
Reference: YICAR 12383

To appear in: *Icarus*

Received date: 18 April 2016
Revised date: 13 February 2017
Accepted date: 23 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Anoxic Atmospheres on Mars Driven by Volcanism: Implications for Past Environments and Life
