Theoretical insight into the carrier mobility anisotropy of hole transport material Spiro-OMeTAD

Guanghao Meng, Yantao Shi, Xuedan Song, Min Ji, Yuan Xue, Ce Hao

PII: S1567-1739(17)30181-5

DOI: [10.1016/j.cap.2017.06.004](https://doi.org/10.1016/j.cap.2017.06.004)

Reference: CAP 4527

To appear in: *Current Applied Physics*

Received Date: 15 February 2017

Revised Date: 8 May 2017

Accepted Date: 13 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
