Solvent effects on the crystal growth structure and morphology of the pharmaceutical dirithromycin

Yuan Wang, Zuozhong Liang

PII: S0022-0248(17)30599-7

DOI: <https://doi.org/10.1016/j.jcrysgr.2017.09.032>

Reference: CRY 24318

To appear in: *Journal of Crystal Growth*

Received Date: 11 July 2017

Revised Date: 13 September 2017

Accepted Date: 29 September 2017

Please cite this article as: Y. Wang, Z. Liang, Solvent effects on the crystal growth structure and morphology of the pharmaceutical dirithromycin, *Journal of Crystal Growth* (2017), doi: <https://doi.org/10.1016/j.jcrysgr.2017.09.032>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Solvent effects on the crystal growth structure and morphology
of the pharmaceutical dirithromycin
