

## Accepted Manuscript

Effects of focal muscle vibration on corticospinal excitability

Raffaele Nardone, Stefan Golaszewski, Monica Christova, Eugen Gallasch, Francesco Brigo, Eugen Trinkka

PII: S0022-510X(17)30119-3  
DOI: doi: [10.1016/j.jns.2017.02.023](https://doi.org/10.1016/j.jns.2017.02.023)  
Reference: JNS 15158

To appear in: *Journal of the Neurological Sciences*

Received date: 13 January 2017  
Accepted date: 8 February 2017

Please cite this article as: Raffaele Nardone, Stefan Golaszewski, Monica Christova, Eugen Gallasch, Francesco Brigo, Eugen Trinkka , Effects of focal muscle vibration on corticospinal excitability. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Jns*(2017), doi: [10.1016/j.jns.2017.02.023](https://doi.org/10.1016/j.jns.2017.02.023)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
