The science and ethics of cell-based therapies for Parkinson's disease

C.R. Towns

PII: S1353-8020(16)30399-6

DOI: [10.1016/j.parkreldis.2016.10.012](https://doi.org/10.1016/j.parkreldis.2016.10.012)

Reference: PRD 3147

To appear in: *Parkinsonism and Related Disorders*

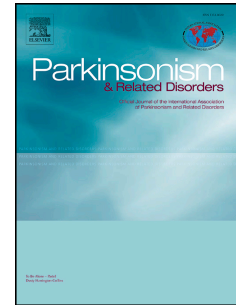

Received Date: 13 June 2016

Revised Date: 18 October 2016

Accepted Date: 18 October 2016

Please cite this article as: Towns CR, The science and ethics of cell-based therapies for Parkinson's disease, *Parkinsonism and Related Disorders* (2016), doi: 10.1016/j.parkreldis.2016.10.012.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Science and Ethics of Cell-Based Therapies for Parkinson's Disease

C R Towns

Consultant Physician, Department of General Medicine, Wellington Hospital.

Adjunct Senior Lecturer, Bioethics Centre, University of Otago.
