Different roles of β -arrestin and the PKA pathway in mitochondrial ROS production induced by acute β -adrenergic receptor stimulation in mouse neonatal cardiomyocytes

Zhang Jianshu, Xiao Han, Shen Jing, Wang Nanping, Zhang Youyi

PII: S0006-291X(17)31040-9

DOI: [10.1016/j.bbrc.2017.05.140](https://doi.org/10.1016/j.bbrc.2017.05.140)

Reference: YBBRC 37861

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 19 May 2017

Accepted Date: 24 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
