Airborne polycyclic aromatic hydrocarbons trigger human skin cells aging through aryl hydrocarbon receptor

Yuan Qiao, Qiang Li, Hong-Yang Du, Qiao-Wei Wang, Ye Huang, Wei Liu

PII: S0006-291X(17)30876-8

DOI: [10.1016/j.bbrc.2017.04.160](https://doi.org/10.1016/j.bbrc.2017.04.160)

Reference: YBBRC 37745

To appear in: *Biochemical and Biophysical Research Communications*

Received Date: 16 April 2017

Accepted Date: 18 April 2017

Please cite this article as: Y. Qiao, Q. Li, H.-Y. Du, Q.-W. Wang, Y. Huang, W. Liu, Airborne polycyclic aromatic hydrocarbons trigger human skin cells aging through aryl hydrocarbon receptor, *Biochemical and Biophysical Research Communications* (2017), doi: 10.1016/j.bbrc.2017.04.160.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Airborne polycyclic aromatic hydrocarbons trigger human skin cells aging  
through Aryl hydrocarbon receptor.**
