Low-pH induced reversible reorganizations of chloroplast thylakoid membranes - as revealed by small-angle neutron scattering

Renáta Ünnep, Ottó Zsiros, Zsolt Hörcsik, Márton Markó, Anjana Jajoo, Joachim Kohlbrecher, Győző Garab, Gergely Nagy

PII: S0005-2728(17)30038-5
DOI: doi:[10.1016/j.bbabi.2017.02.010](https://doi.org/10.1016/j.bbabi.2017.02.010)
Reference: BBABIO 47788

To appear in: *BBA - Bioenergetics*

Received date: 12 August 2016
Revised date: 13 February 2017
Accepted date: 15 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Low-pH induced reversible reorganizations of chloroplast thylakoid membranes - as revealed by small-angle neutron scattering
