

## Accepted Manuscript

Spectral Phasor analysis of LAURDAN fluorescence in live A549 lung cells to study the hydration and time evolution of intracellular lamellar body-like structures

Leonel Malacrida, Soledad Astrada, Arturo Briva, Mariela Bollati-Fogolín, Enrico Gratton, Luis A. Bagatolli

PII: S0005-2736(16)30270-X  
DOI: doi: [10.1016/j.bbamem.2016.07.017](https://doi.org/10.1016/j.bbamem.2016.07.017)  
Reference: BBAMEM 82278

To appear in: *BBA - Biomembranes*

Received date: 1 February 2016  
Revised date: 25 July 2016  
Accepted date: 27 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
