Accepted Manuscript

N-acylethanolamine-hydrolyzing acid amidase and fatty acid amide hydrolase inhibition differentially affect N-acylethanolamine levels and macrophage activation

Mireille Alhouayek, Pauline Bottemanne, Alexandros Makriyannis, Giulio G. Muccioli

PII: S1388-1981(17)30001-X

DOI: doi:10.1016/j.bbalip.2017.01.001

Reference: BBAMCB 58099

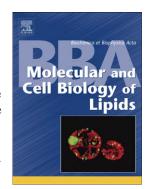

To appear in: BBA - Molecular and Cell Biology of Lipids

Received date: 1 July 2016

Revised date: 20 November 2016 Accepted date: 4 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
