Biological and pathophysiological roles of end-products of DHA oxidation

Valentin P. Yakubenko, Tatiana V. Byzova

PII: S1388-1981(16)30268-2
DOI: doi:[10.1016/j.bbalip.2016.09.022](https://doi.org/10.1016/j.bbalip.2016.09.022)
Reference: BBAMCB 58060

To appear in: *BBA - Molecular and Cell Biology of Lipids*

Received date: 25 May 2016
Revised date: 28 September 2016
Accepted date: 29 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Biological and pathophysiological roles of end-products of DHA oxidation.

Valentin P. Yakubenko* #, Tatiana V. Byzova* ±
