Adenoviral CCN gene transfers induce *in vitro* and *in vivo* endoplasmic reticulum stress and unfolded protein response

Erawan Borkham-Kamphorst, Bettina Therese Steffen, Eddy Van de Leur, Lidia Tihaa, Ute Haas, Marius M. Voitok, Steffen K. Meurer, Ralf Weiskirchen

PII: S0167-4889(16)30193-8
DOI: doi: [10.1016/j.bbamcr.2016.07.006](https://doi.org/10.1016/j.bbamcr.2016.07.006)
Reference: BBAMCR 17906

To appear in: *BBA - Molecular Cell Research*

Received date: 11 March 2016
Revised date: 29 June 2016
Accepted date: 19 July 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Regular article-

Adenoviral CCN gene transfers induce *in vitro* and *in vivo* endoplasmic reticulum stress and unfolded protein response

Erawan Borkham-Kamphorst¹, Bettina Therese Steffen¹, Eddy Van de Leur¹, Lidia Tihaa¹, Ute Haas¹, Marius M. Voitok², Steffen K. Meurer and Ralf Weiskirchen¹
