

## Accepted Manuscript

A novel fluorescent probe reveals starvation controls the commitment of amyloid precursor protein to the lysosome

Leanne K. Hein, Pirjo M. Apaja, Kathryn Hattersley, Randall H. Grose, Jianling Xie, Christopher G. Proud, Timothy J. Sargeant

PII: S0167-4889(17)30163-5  
DOI: doi:[10.1016/j.bbamcr.2017.06.011](https://doi.org/10.1016/j.bbamcr.2017.06.011)  
Reference: BBAMCR 18124

To appear in: *BBA - Molecular Cell Research*

Received date: 15 February 2017  
Revised date: 3 June 2017  
Accepted date: 17 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A novel fluorescent probe reveals starvation controls the commitment of amyloid precursor protein to the lysosome
