This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Statistical considerations for determining high-sensitivity cardiac troponin reference intervals

Running title: Statistics and the troponin 99th percentile

Authors: Peter E Hickman^{1,2}, Gus Koerbin³, Julia M Potter^{1,2}, Walter P Abhayaratna².
