

## Accepted Manuscript

Insights into the phosphatidylcholine and phosphatidylethanolamine biosynthetic pathways in *Leishmania* parasites and characterization of a choline kinase from *Leishmania infantum*

Sergio A. Pulido, Victoria H. Nguyen, Juan F. Alzate, David L. Cedeño, Monika A. Makurath, Amalia Ríos-Vásquez, Sandra M. Duque-Benítez, Marjorie A. Jones, Sara M. Robledo, Jon A. Friesen

PII: S1096-4959(17)30110-0  
DOI: doi:[10.1016/j.cbpb.2017.07.008](https://doi.org/10.1016/j.cbpb.2017.07.008)  
Reference: CBB 10118

To appear in: *Comparative Biochemistry and Physiology, Part B*

Received date: 14 March 2017  
Revised date: 17 July 2017  
Accepted date: 20 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
