

Accepted Manuscript

Design of larval chemical attractants based on odorant response spectra of olfactory receptors in the cotton bollworm

Chang Di, Chao Ning, Ling-Qiao Huang, Chen-Zhu Wang

PII: S0965-1748(17)30048-6

DOI: [10.1016/j.ibmb.2017.03.007](https://doi.org/10.1016/j.ibmb.2017.03.007)

Reference: IB 2938

To appear in: *Insect Biochemistry and Molecular Biology*

Received Date: 20 January 2017

Revised Date: 28 March 2017

Accepted Date: 28 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Larval antenna

Helicoverpa armigera

The most effective ligands of ORs

Larval attractant: MJAP blend
