Title: Exploiting oleuropein for inhibiting collagen fibril formation

Authors: H. Bharathy, N. Nishad Fathima

PII: S0141-8130(16)31782-2

DOI: <http://dx.doi.org/doi:10.1016/j.ijbiomac.2017.03.050>

Reference: BIOMAC 7216

To appear in: *International Journal of Biological Macromolecules*

Received date: 26-9-2016

Revised date: 19-1-2017

Accepted date: 10-3-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Exploiting Oleuropein for Inhibiting Collagen Fibril Formation

*H. Bharathy, N. Nishad Fathima**

Inorganic and Physical Chemistry Laboratory, CSIR-Central Leather Research Institute, Adyar,
Chennai-600020, India

Highlights

- It elucidates the effect of oleuropein on inhibition of self assembly of collagen.
- It explores to study the physico-chemical interaction pattern between collagen and oleuropein.
- The inhibition of collagen fibril formation at higher levels indicates a promising treatment to treat fibrotic disorders.
