Title: Protective effect of pilose antler peptide on carbon tetrachloride-induced hepatotoxicity in mice

Authors: Ma Chunhua, Long Hongyan

PII: S0141-8130(17)30594-9
DOI: <http://dx.doi.org/doi:10.1016/j.ijbiomac.2017.03.024>
Reference: BIOMAC 7190

To appear in: *International Journal of Biological Macromolecules*

Received date: 16-2-2017
Revised date: 3-3-2017
Accepted date: 4-3-2017

Please cite this article as: Ma Chunhua, Long Hongyan, Protective effect of pilose antler peptide on carbon tetrachloride-induced hepatotoxicity in mice, International Journal of Biological Macromolecules <http://dx.doi.org/10.1016/j.ijbiomac.2017.03.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Protective effect of pilose antler peptide on carbon tetrachloride-induced hepatotoxicity in mice

Ma Chunhua, Long Hongyan*
