Title: Influence of graphene-oxide nanosheets impregnation on properties of sterculia gum-polyacrylamide hydrogel formed by radiation induced polymerization

Authors: Baljit Singh, Baldev Singh

PII: S0141-8130(16)32799-4
DOI: <http://dx.doi.org/doi:10.1016/j.ijbiomac.2017.03.037>
Reference: BIOMAC 7203

To appear in: *International Journal of Biological Macromolecules*

Received date: 7-12-2016
Revised date: 1-2-2017
Accepted date: 6-3-2017

Please cite this article as: Baljit Singh, Baldev Singh, Influence of graphene-oxide nanosheets impregnation on properties of sterculia gum-polyacrylamide hydrogel formed by radiation induced polymerization, *International Journal of Biological Macromolecules* <http://dx.doi.org/10.1016/j.ijbiomac.2017.03.037>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Influence of graphene-oxide nanosheets impregnation on properties of sterculia gum-polyacrylamide hydrogel formed by radiation induced polymerization

Baljit Singh* and Baldev Singh

Department of Chemistry, Himachal Pradesh University, Shimla -171005, India.
