Author's last names: Nunez Lopez, Pittas, Pratley, Seyhan

Corresponding author: Address correspondence to Attila Seyhan, PhD, Translational Research Institute for Metabolism and Diabetes, Florida Hospital, 301 East Princeton Street, Orlando, FL, 32804. Office: 407-303-7211, Fax: 407-303-7199, Attila_Seyhan@yahoo.com.

Short running head: MicroRNA modulation by vitamin D in prediabetes

Funding sources: Supported by the Translational Research Institute for Metabolism and Diabetes, Florida Hospital (startup funds to AAS and REP), the National Institutes of Health [NIH; research grant R01DK76092 (to AGP) funded by the National Institute of Diabetes and Digestive and Kidney Disease and the NIH Office of Dietary Supplements], and the National Center for Research Resources (UL1 RR025752; to Tufts Medical Center).

Keywords: Vitamin D, microRNA, miRNA, biomarker, glycemic control
