Title: The impact of heterogeneity in Phosphoinositide 3-Kinase pathway in human cancer and possible therapeutic treatments

Author: William Wang Jiapei Lv Lingyan Wang Xiangdong Wang Ling Ye

PII: S1084-9521(16)30265-8
DOI: <http://dx.doi.org/doi:10.1016/j.semcdb.2016.08.024>
Reference: YSCDB 2125

To appear in: *Seminars in Cell & Developmental Biology*

Received date: 18-8-2016
Accepted date: 24-8-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The impact of heterogeneity in Phosphoinositide 3-Kinase pathway in human cancer and possible therapeutic treatments
