Sperm mitochondrial function is affected by stallion age and predicts post-thaw motility

Christa R. Darr, Luis E. Moraes, Tawny N. Scanlan, Julie Baumber-Skaife, Paul R. Loomis, Gino A. Cortopassi, Stuart A. Meyers

PII: S0737-0806(16)30544-5

DOI: [10.1016/j.jevs.2016.10.015](https://doi.org/10.1016/j.jevs.2016.10.015)

Reference: YJEVS 2207

To appear in: *Journal of Equine Veterinary Science*

Received Date: 9 September 2016

Revised Date: 26 October 2016

Accepted Date: 31 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title: Sperm mitochondrial function is affected by stallion age and predicts post-thaw motility
