Exploring the potential of T7 bacteriophage protein Gp2 as a novel inhibitor of mycobacterial RNA polymerase

J. du Plessis, R. Cloete, L. Burchell, P. Sarkar, R.M. Warren, A. Christoffels, S. Wigneshweraraj, S.L. Sampson

PII: S1472-9792(17)30038-0

DOI: [10.1016/j.tube.2017.07.004](https://doi.org/10.1016/j.tube.2017.07.004)

Reference: YTUBE 1600

To appear in: *Tuberculosis*

Received Date: 6 February 2017

Revised Date: 4 July 2017

Accepted Date: 13 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
