Title: Use of protected fat sources to reduce fatty acid biohydrogenation and improve abomasal flow in dry dairy cows

Author: Vitor Pereira Bettero Tiago Antônio Del Valle Rafael Villela Barletta Cybele Emília de Araújo Elmeson Ferreira de Jesus Gustavo Ferreira de Almeida Caio Seiti Takiya Filipe Zanferari Pablo Gomes de Paiva José Esler de Freitas Júnior Francisco Palma Rennó

PII: S0377-8401(16)31120-8
DOI: <http://dx.doi.org/doi:10.1016/j.anifeedsci.2016.12.007>
Reference: ANIFEE 13687

To appear in: *Animal Feed Science and Technology*

Received date: 21-4-2016
Revised date: 1-12-2016
Accepted date: 12-12-2016

Please cite this article as: Bettero, Vitor Pereira, Del Valle, Tiago Antônio, Barletta, Rafael Villela, de Araújo, Cybele Emília, de Jesus, Elmeson Ferreira, de Almeida, Gustavo Ferreira, Takiya, Caio Seiti, Zanferari, Filipe, de Paiva, Pablo Gomes, de Freitas Júnior, José Esler, Rennó, Francisco Palma, Use of protected fat sources to reduce fatty acid biohydrogenation and improve abomasal flow in dry dairy cows. *Animal Feed Science and Technology* <http://dx.doi.org/10.1016/j.anifeedsci.2016.12.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Use of protected fat sources to reduce fatty acid biohydrogenation and improve abomasal flow in dry dairy cows

Vitor Pereira Bettero^b; Tiago Antônio Del Valle^a, Rafael Villela Barletta^a, Cybele Emília de Araújo^a, Elmeson Ferreira de Jesus^b, Gustavo Ferreira de Almeida^a, Caio Seiti Takiya^a, Filipe Zanferari^a, Pablo Gomes de Paiva^b, José Esler de Freitas Júnior^a, Francisco Palma Rennó^{a#}

^bDepartment of Animal Science, UNESP - Universidade Estadual Paulista “Júlio de Mesquita Filho”, Jaboticabal, Brazil.

*Bursar 1-C of National Council of Scientific and Technologic Development.

Corresponding author: F. P. Rennó. E-mail: francisco.renno@usp.br. Address: Av. Duque de Caxias Norte 225, Pirassununga, São Paulo, Zip code 13635-900, Brazil.

Highlights

Ruminal biohydrogenation and fatty acid flow to the abomasum were studied in dairy cows.
