

## Accepted Manuscript

The effect of commercial, natural and grape seed extract supplemented diets on gene expression signatures and survival of greenlip abalone (*Haliotis laevis*) during heat stress

Brett P. Shiel, Nathan E. Hall, Ira R. Cooke, Nicholas A. Robinson, David A.J. Stone, Jan M. Strugnell

PII: S0044-8486(17)30082-0  
DOI: doi: [10.1016/j.aquaculture.2017.07.025](https://doi.org/10.1016/j.aquaculture.2017.07.025)  
Reference: AQUA 632746

To appear in: *aquaculture*

Received date: 12 January 2017

Revised date: 13 July 2017

Accepted date: 18 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:** The effect of commercial, natural and grape seed extract supplemented diets on gene expression signatures and survival of greenlip abalone (*Haliotis laevis*) during heat stress
