This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Bayesian latent class analysis of diagnostic sensitivity and specificity of tests for surveillance for bacterial kidney disease in Atlantic salmon *Salmo salar*

Diana Jaramillo, Ian A. Gardner, Henrik Stryhn, Holly Burnley and K. Larry Hammell

Centre for Veterinary Epidemiological Research, Department of Health Management,
