Title: Incentive salience attribution is not the sole determinant of suboptimal choice in rats: Conditioned inhibition matters

Authors: Montserrat Martínez, Rodrigo Alba, William Rodríguez, Vladimir Orduña

PII: S0376-6357(17)30209-7
DOI: <http://dx.doi.org/doi:10.1016/j.beproc.2017.06.012>
Reference: BEPROC 3478

To appear in: *Behavioural Processes*

Received date: 4-5-2017
Revised date: 29-6-2017
Accepted date: 30-6-2017

Please cite this article as: Martínez, Montserrat, Alba, Rodrigo, Rodríguez, William, Orduña, Vladimir, Incentive salience attribution is not the sole determinant of suboptimal choice in rats: Conditioned inhibition matters. *Behavioural Processes* <http://dx.doi.org/10.1016/j.beproc.2017.06.012>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
