A snake-like serine proteinase (*PmSnake*) activates prophenoloxidase-activating system in black tiger shrimp *Penaeus monodon*

Warunthorn Monwan, Piti Amparyup, Anchalee Tassanakajon

PII: S0145-305X(16)30299-3

DOI: [10.1016/j.dci.2016.09.016](https://doi.org/10.1016/j.dci.2016.09.016)

Reference: DCI 2734

To appear in: *Developmental and Comparative Immunology*

Received Date: 29 July 2016

Revised Date: 26 September 2016

Accepted Date: 26 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A Snake-like Serine Proteinase (*PmSnake*) Activates Prophenoloxidase-Activating
System in Black Tiger Shrimp *Penaeus monodon***
