Gill structural integrity changes in fish deficient or excessive in dietary isoleucine: Towards the modulation of tight junction protein, inflammation, apoptosis and antioxidant defense via NF- κ B, TOR and Nrf2 signaling pathways

Lin Feng, Lu Gan, Wei-Dan Jiang, Pei Wu, Yang Liu, Jun Jiang, Ling Tang, Sheng-Yao Kuang, Wu-Neng Tang, Yong-An Zhang, Xiao-Qiu Zhou

PII: S1050-4648(17)30073-6

DOI: [10.1016/j.fsi.2017.02.010](https://doi.org/10.1016/j.fsi.2017.02.010)

Reference: YFSIM 4432

To appear in: *Fish and Shellfish Immunology*

Received Date: 10 October 2016

Revised Date: 31 December 2016

Accepted Date: 9 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Gill structural integrity changes in fish deficient or excessive in dietary isoleucine:
towards the modulation of tight junction protein, inflammation, apoptosis and
antioxidant defense via NF- κ B, TOR and Nrf2 signaling pathways**
