Title: The random regression coefficient approach in analysis of early growth of Alpine and Saanen kids

Author: A. Kasap A. Kaić I. Širić Z. Antunović B. Mioč

Please cite this article as: Kasap, A., Kaić, A., Širić, I., Antunović, Z., Mioč, B., The random regression coefficient approach in analysis of early growth of Alpine and Saanen kids, *Small Ruminant Research* (2017), http://dx.doi.org/10.1016/j.smallrumres.2017.03.001

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

1 2	Highlights
3 4 5	 RR contributes to accuracy of estimates in studies based on test day records. RR eliminates usage of additive/multiplicative corrective factors in analysis Study should trigger wider usage of RR in analysis of growth and similar phenomena
