Linking organic anion transporting polypeptide 1B1 and 1B3 (OATP1B1 and OATP1B3) interaction profiles to hepatotoxicity - The hyperbilirubinemia use case

Eleni Kotsampasakou, Sylvia E. Escher, Gerhard F. Ecker

PII: S0928-0987(17)30002-7

DOI: doi: [10.1016/j.ejps.2017.01.002](https://doi.org/10.1016/j.ejps.2017.01.002)

Reference: PHASCI 3861

To appear in: *European Journal of Pharmaceutical Sciences*

Received date: 1 July 2016

Revised date: 26 November 2016

Accepted date: 2 January 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Linking organic anion transporting polypeptide 1B1
and 1B3 (OATP1B1 and OATP1B3) interaction
profiles to hepatotoxicity - the hyperbilirubinemia
use case**
