Title: Critical quality attributes, in vitro release and correlated in vitro skin permeation—In vivo tape stripping collective data for demonstrating therapeutic (non)equivalence of topical semisolids: a case study of “ready-to-use” vehicles

Authors: Tanja Ilić, Ivana Pantelić, Dominique Lunter, Sanela Đorević, Bojan Marković, Dragana Ranković, Rolf Daniels, Snežana Savić

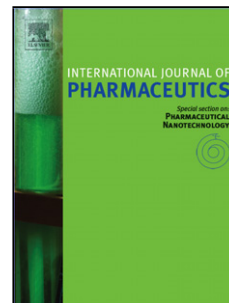

PII: S0378-5173(17)30526-4
DOI: <http://dx.doi.org/doi:10.1016/j.ijpharm.2017.06.018>
Reference: IJP 16742

To appear in: *International Journal of Pharmaceutics*

Received date: 22-2-2017
Revised date: 16-5-2017
Accepted date: 6-6-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Critical quality attributes, in vitro release and correlated in vitro skin permeation – in vivo tape stripping collective data for demonstrating therapeutic (non)equivalence of topical semisolids: a case study of “ready-to-use” vehicles
