This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

Glucocorticoids activate a synapse weakening pathway culminating in tau phosphorylation in the hippocampus

Authors

Jee Hyun Yi^{a,e}, Christopher Brown^{a,b,e}, Garry Whitehead^a, Thomas Piers^{a,b,c}, Young Seok Lee^{a,d}, Celia Martinez Perez^a, Philip Regan^{a,c}, Daniel J. Whitcomb^{a,c} and *Kwangwook Cho^{a,c}
