

## Accepted Manuscript

Title: Resveratrol regulates gene transcription via activation of stimulus-responsive transcription factors

Author: Gerald Thiel Oliver G. Rössler

PII: S1043-6618(16)31066-0

DOI: <http://dx.doi.org/doi:10.1016/j.phrs.2016.12.029>

Reference: YPHRS 3452

To appear in: *Pharmacological Research*

Received date: 18-10-2016

Revised date: 16-12-2016

Accepted date: 18-12-2016

Please cite this article as: Thiel Gerald, Rössler Oliver G. Resveratrol regulates gene transcription via activation of stimulus-responsive transcription factors. *Pharmacological Research* <http://dx.doi.org/10.1016/j.phrs.2016.12.029>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
