### Accepted Manuscript

Environmental enrichment reduces chronic psychosocial stressinduced anxiety and ethanol-related behaviors in mice

# Neuro-Psychopharmacology & Biological Psychiatry

#### Amine Bahi

PII: S0278-5846(17)30019-2

DOI: doi: 10.1016/j.pnpbp.2017.04.001

Reference: PNP 9058

To appear in: Progress in Neuropsychopharmacology & Biological Psychiatry

Received date: 6 January 2017 Revised date: 7 March 2017 Accepted date: 2 April 2017

Please cite this article as: Amine Bahi , Environmental enrichment reduces chronic psychosocial stress-induced anxiety and ethanol-related behaviors in mice. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Pnp(2016), doi: 10.1016/j.pnpbp.2017.04.001

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **ACCEPTED MANUSCRIPT**

# Environmental enrichment reduces chronic psychosocial stress-induced anxiety and ethanol-related behaviors in mice

Amine Bahi

Department of Anatomy, Tawam Medical Campus, United Arab Emirates University, Al Ain, UAE
