Isoliquiritigenin exhibits anti-proliferative properties in the pituitary independent of estrogen receptor function

Karen E. Weis, Lori T. Raetzman

PII: S0041-008X(16)30301-5
DOI: doi: [10.1016/j.taap.2016.09.027](https://doi.org/10.1016/j.taap.2016.09.027)
Reference: YTAAP 13775

To appear in: *Toxicology and Applied Pharmacology*

Received date: 10 June 2016
Revised date: 16 September 2016
Accepted date: 29 September 2016
