A 12-week randomized clinical trial investigating the potential for sucralose to affect glucose homeostasis

V. Lee Grotz, Xavier Pi-Sunyer, Daniel Porte, Jr., Ashley Roberts, J. Richard Trout

PII: S0273-2300(17)30126-5

DOI: [10.1016/j.yrtph.2017.05.011](https://doi.org/10.1016/j.yrtph.2017.05.011)

Reference: YRTPH 3837

To appear in: *Regulatory Toxicology and Pharmacology*

Received Date: 4 January 2017

Revised Date: 5 May 2017

Accepted Date: 10 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **A 12-week randomized clinical trial investigating the potential for sucralose to affect**
2 **glucose homeostasis**

3

4 **Running Title: Sucralose and Glucose Homeostasis**

5

6 Keywords/phrases: sucralose; glucose homeostasis; OGTT; healthy volunteers

7

8 Word counts: Abstract = 199; Text = 5694
