

## Accepted Manuscript

Title: Do isometric pull-down exercises increase the acromio-humeral distance?

Author: P. Sealey D. Critchley

PII: S0031-9406(16)30018-9

DOI: <http://dx.doi.org/doi:10.1016/j.physio.2016.03.002>

Reference: PHYST 903

To appear in: *Physiotherapy*

Received date: 14-9-2014

Accepted date: 4-3-2016

Please cite this article as: Sealey P, Critchley D, Do isometric pull-down exercises increase the acromio-humeral distance?, *Physiotherapy* (2016), <http://dx.doi.org/10.1016/j.physio.2016.03.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Do isometric pull-down exercises increase the acromio-humeral**  
2 **distance?**
