Co-ingesting milk fat with micellar casein does not affect postprandial protein handling in healthy older men

Stefan H.M. Gorissen, Nicholas A. Burd, Irene Fleur Kramer, Janneau van Kranenburg, Annemie P. Gijsen, Olav Rooyackers, L.J.C. van Loon, PhD, Professor

PII: S0261-5614(15)00349-0

DOI: [10.1016/j.clnu.2015.12.011](https://doi.org/10.1016/j.clnu.2015.12.011)

Reference: YCLNU 2710

To appear in: *Clinical Nutrition*

Received Date: 24 March 2015

Revised Date: 6 November 2015

Accepted Date: 11 December 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Co-ingesting milk fat with micellar casein does not affect postprandial**
2 **protein handling in healthy older men**
