Lumbar muscle cross-sectional areas do not predict clinical outcomes in adults with spinal stenosis: a longitudinal study

Alfred C. Gellhorn, MD, Pradeep Suri, MD, MS, Sean Rundell, DPT, PhD, Nathan Olafsen, MD, M Jake Carlson, MD, Steve Johnson, MD, Adrielle Fry, MD, Thiru Anaswamy, MD, Christopher Gilligan, MD, MBA, Bryan Comstock, MS, Patrick Heagerty, PhD, Janna Friedly, MD, Jeffrey G. Jarvik, MD, MPH

PII: S1934-1482(16)30972-8

DOI: [10.1016/j.pmrj.2016.09.014](https://doi.org/10.1016/j.pmrj.2016.09.014)

Reference: PMRJ 1793

To appear in: *PM&R*

Received Date: 8 June 2016

Revised Date: 19 September 2016

Accepted Date: 28 September 2016

Please cite this article as: Gellhorn AC, Suri P, Rundell S, Olafsen N, Carlson MJ, Johnson S, Fry A, Anaswamy T, Gilligan C, Comstock B, Heagerty P, Friedly J, Jarvik JG, Lumbar muscle cross-sectional areas do not predict clinical outcomes in adults with spinal stenosis: a longitudinal study, *PM&R* (2016), doi: 10.1016/j.pmrj.2016.09.014.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 *Lumbar muscle cross-sectional areas do not predict clinical outcomes in adults with spinal*  
2 *stenosis: a longitudinal study*
