This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Dipeptidyl peptidase-4 inhibitors, peripheral arterial disease and lower extremity

amputation risk in diabetic patients

*Chun-Chin Chang, M.D.^{1,7,9}, *Yung-Tai Chen, M.D.^{2,9}, Chien-Yi Hsu, M.D.^{7,9,10}, Yu-Wen Su, M.D.³, Chun-Chih Chiu,
