Authors' contributions:

All of the authors of this manuscript were directly involved in the care of this patient. CD¹ conducted a literature review and compiled the first draft with contributions from SB, CD³, NW, and HR. SB, CD³, JS, EB, and HR performed significant revisions and GF provided photos and pathologic analysis of the case. All authors read and approved the final manuscript.

Authors' Information:

CD¹ is an infectious disease fellow at Brigham & Women's Hospital (BWH). SB and CD³ are internal medicine residents at BWH and University of San Francisco Medical Center respectively. NW is an ophthalmology fellow at Massachusetts Eye and Ear Infirmary and JS is an ophthalmology attending at the Joslin Diabetes Center. GF is a pathology resident at BWH. EB is an academic educator and the associate chief of Hospital Medicine and HR is an infectious disease attending, both at BWH.

Conflict of Interest: None

Funding: This publication was supported by Grant Number T32 AI007433 from the National Institute of Allergy and Infectious Diseases. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the NIH.

Keywords: Whipple's Disease, Culture-Negative Endocarditis, Endophthalmitis, Immune Reconstitution Inflammatory Syndrome
