**Manuscript #:** 16-776

**Type of manuscript:** clinical research study

**Word count:** 2,994

**Key words:** aortic stenosis, gout, valvular heart disease

All authors had access to the data and a role in writing this manuscript

#### Conflict of Interest

M.H.P. and B.D.S. receive support from NYU CTSA grant 1UL1TR001445 from the National Center for the Advancement of Translational Science (NCATS), NIH. B.D.S. was supported in part by the Biomedical Laboratory Research & Development Service of the VA Office of Research and Development (I01BX007080). S.K. was supported in part by an Investigator Award from the Rheumatology Research Foundation. B.D.S. and S.K. were supported in part by a New York State Empire Clinical Research Investigator Program (ECRIP) award.

M.H.P. serves and/or has served as a consultant for AstraZeneca, Crealta/Horizon, and Sobi, and has been an investigative site for a sponsored trial by Takeda. S.K. has served as a consultant for Crealta/Horizon. B.D.S. receives research grant support from Siemens. M.H.P., B.D.S. and S.P.S. have previously received research grant support from Takeda. K.C., C.Y., C.T., A.C-S and R.D. report no disclosures.
