This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:**The Diagnostic Utility of Sonographic Carotid Flow Time in Determining Volume Responsiveness****Authors:**

- 1- Hamid Shokoohi, MD, MPH, RDMS, RDCS** (Associate Professor, Director of Emergency Ultrasound Fellowship- Department of Emergency Medicine, The George Washington University, Washington DC)
- 2- Grant W. Berry, MD** (Emergency Ultrasound Fellow, Department of Emergency Medicine, The George Washington University, Washington DC)
- 3- Murteza Shahkolahi, MD** (Emergency Medicine Resident, Department of Emergency Medicine, The George Washington University, Washington DC)
- 4- Jackson King, BS** (Research Assistant, Department of Emergency Medicine, The George Washington University, Washington DC)
- 5- Jordan King, PharmD, MS** (Clinical Pharmacy Specialist, Research, Department of Pharmacy, Kaiser Permanente Colorado, Aurora, CO)
- 6- Mohammad Salimian, MD** (Research Assistant, Department of Emergency Medicine, The George Washington University, Washington DC)
- 7- Ameneh Poshtmashad RDMS** (Clinical Sonographer, The George Washington University, Washington DC)
- 8- Ali Pourmand, MD MPH RDMS** (Associate Professor, Department of Emergency Medicine, The George Washington University, Washington DC)

Corresponding Author: Hamid Shokoohi, MD, MPH, RDMS RDCS

Mailing address: 2120 L Street NW, Suite 450, Washington, DC 20037

Telephone number: 202 741 2911

FAX number: 202 741-2921

E-mail address: shokoohi@gwu.edu , hshokoohi@gmail.com
